2020

Anaikatty Rural Community College

What the numbers say....

What a wonderful way to end the year 2019 and begin the new year! 40 new students in the last 3 months and 60 students in the 5 Field Training Centers. We are overwhelmed and humbled by the breakthrough!

One of the major breakthroughs we have had this year, is reaching the target beneficiaries of drop out young men in the ages of 14 to 30. We have plenty lot of them this year and we look at it as a major breakthrough and success!! They have infact superceded the women this time. Also the majority of the people we reach are the tribal people. We have more than 100 students benefitting through ARCC every week directly at the Center and through the Field Training Centers in the villages of Anaikatty.

The ARCC Team Rocks!

The ARCC Team has been progressing well with the new structuring of our divisions into Academic Division headed by the Academic Co-ordinator Mrs. Radhika and the Field Work headed by the Field Co-ordinator Mr. Alwin. We have an accounts division and together they form the administrative team.

The Team is Directed by Mr. Devasagayam and Mrs. Beulah is trustee. Mr. Ebenezer is the President of the Dreamz Trust and Mrs. Rachel is the Secretary and Co-ordinator of the ARCC Project.

Shared Vision & Team Learning

From the beginning of this year, we had a goal to focus on the Quality of the teaching, now that the courses were established.

A participatory way of discussion and review meetings is conducted on a monthly basis with the staff. This has helped enhance the quality of education, the energy and commitment of the team and brought up also creative ways to reach out to the community.

THE MAIN KEY FOR THE SUCCESS AND BREAKTHROUGH WAS TO SEE EACH STAFF AND STUDENT AS A RESOURCE AND NOT UNDERMINE THE POTENTIAL.

We thank the Almighty God for His grace and leading us forward towards success and achievement.

COURSES @ARCC

BASIC COMPUTER & TALLY Courses are taught here by our staff Mrs.Radhika. Right now there are 2 batches going on 6 students in Basic Computers and 9 students in Tally Course.

TAILORING 9 students in the morning batch taught by tailoring teacher Mallika and the afternoon batch with 5 students taught by Mrs.Deepa.

MOBILE REPAIR: There is a partnership with a mobile phone repair training institute and service center in coimbatore called T-mobile. A staff from their company comes and trains the students. Right now 11 students. We have a challenge with all of them coming for all the classes but so far there is progress in their output and they go for internship to the T-mobile center in the city.

BEAUTICIAN: A Very promising course with high earning potential. Right now 8 students in the course. Mrs.Jayanthi is the trainer. There are many guys who are interested in getting trained in this field and we look forward to the guys entering this field as well.

HOUSE ELECTRICIAN is another course where students are thrilled to learn. They have practical training in houses and places where they help in housewiring. Mr.Muthukumar is our electrical staff who trains the students in Housewiring.

HEALTH ASSISTANT: 13 tribal young women have joined our nursing course. We have a tie up with the Bethany Medical Center located opposite the ARCC and we are looking forward to all of them finishing the course successfully. The students dropped out last year in the middle of the program, this year we picked up and we have started training for the tribal young women. We have provided them with hostel facilities, giving them free food and travel.

CATERING: We finally have drop out young men enrolling for the Catering Course after training women for the past 1.5 years. These young men are very interested in a career in Catering. Some of them have already gone for an internship for a 2 day function and have earned Rs.2000 each and they are thrilled.

Field Training Centers & Awareness Camps

Field Training Centers have been established in as many as 10 villages in the past 2 years. It was an experimentation program to see if we could reach skill education to the door step and it has worked well. 200 students have finished their basic courses in computer and tailoring. This year the students from Kondanur and Jambugandy have done outstandingly well in Tailoring. The Kondanur students have received BSS certification this year.

Panapalli Village

Right now we have a 5 Field Training Centers (FTC) :
Computer in Kondanur by Selvi, Computer in Arnatkadu by Radhika, Tailoring in Jambugandy by deepa,
Computer in Thoovaipathy by Sunitha and Tailoring in Kondanur Pudhur by Maniyarasi. We hope to start
5 more in the coming year.

Our staff go into the villages to talk to drop outs and hosue wives and sometimes do a demo for them to develop interest in them. On the right you see a promotion for the catering course where our field workers are doing a demo of tandoori panneer to attract students to the courses.

Events

To reach out to the different young men and women who are dropouts and housewives and woo them to get their skill education we use different methods of outreach through medical camps, summer camps, cricket matches and other village outreaches.

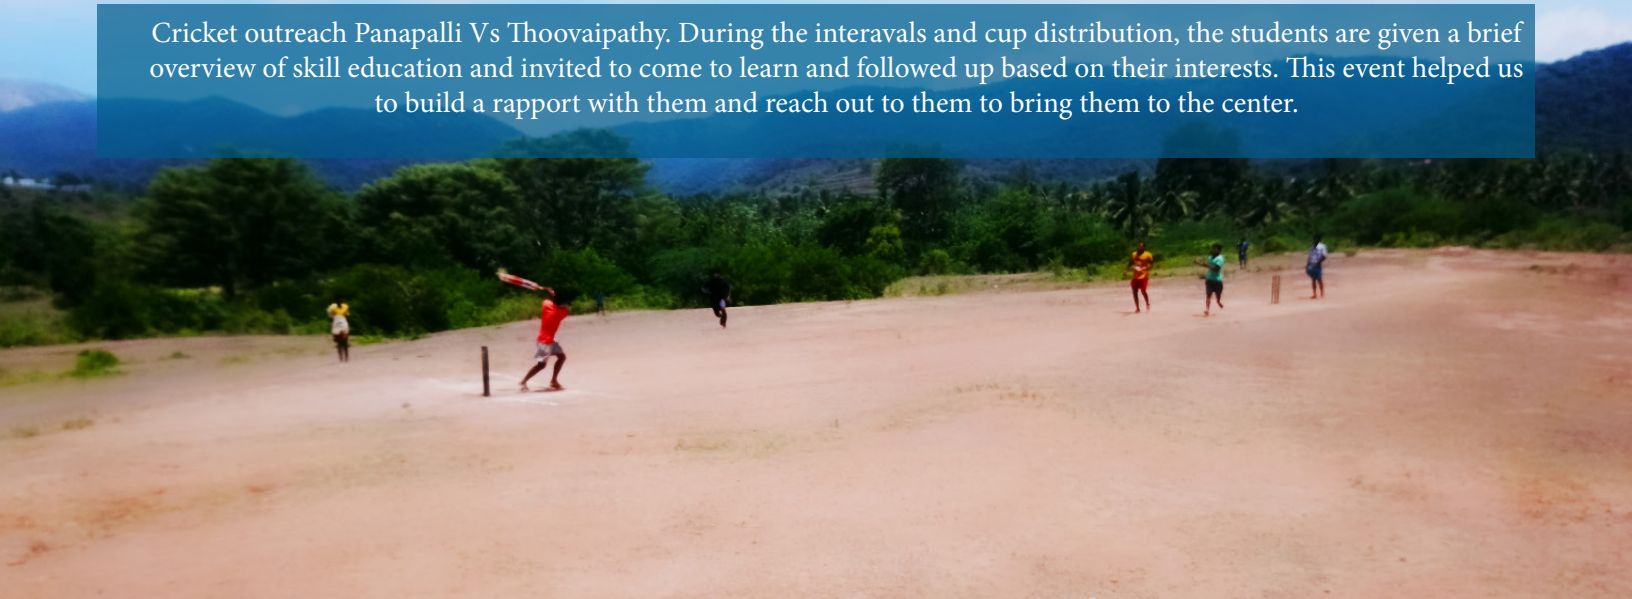

Summer Camps

During the summer break, kids from different villages are encouraged to come to the center to study different skills like beautician, embroidery and computers for 30 to 40 days. They were given certificates upon completion. For the first time children from the interior villages in Anaikatty came and attended the summer course and we gave certificates at Panapalli village after conducting some programs for them.

Friendly Cricket Matches

Cricket outreach Panapalli Vs Thoovaipathy. During the interavals and cup distribution, the students are given a brief overview of skill education and invited to come to learn and followed up based on their interests. This event helped us to build a rapport with them and reach out to them to bring them to the center.

Medical Camp

In association with Sri Lakshmi Hospitals Thudiyalur, the Medical camp was conducted at Kulikur village where 106 people came for health checkup including general health check up, EGG, ECHO and Orthopedic division. It wa a great boon to the people of Anaikatty.

Staff Development Program

All the ARCC staff gathered to craete a shared vision for the organisation on 16th December 2019 and it was indeed a very useful and interesting session as we progressed towards becoming a learning organisation.

There was a session in the morning on Basic Communication by corporate trainer Ms.Sheeba Caroline with some activities. Then later on a session on creating Sustainable Work Groups to create work and income opportunities as a student -teacher team along with alumini and industry experts for each field in ARCC. It was welcomed very much by the staff who profusely enjoyed participating in the future of ARCC through

We are grateful to each and everyone who has contributed to the success and progress of the ARCC. We look forward to do more for the people of Anaikatty and lead them towards this movement of community, social and economic development and sustainability.
